A leader in innovative solutions for printing and converting

PCMC specializes in the design and manufacture of high-performance converting machinery for the tissue, nonwovens, package-printing and bag-converting industries worldwide. Our comprehensive product offerings include rewinding, laminating, printing, embossing, perforating and packaging equipment for tissue and towels; folding and converting machines; pouch, wicketers, flat belt/bottom seal machines; and a complete range of flexographic and digital printing presses and laser anilox cleaners, serving the flexible-packaging, prime-label and carton converting industries.
Welcome to the Virtual 2020 Converters Expo!

Join your peers in the converting industry for all the remarkable information and networking that Converters Expo provides, virtual-style.

Converters Expo is your one-stop shop for all things converting. With more than 100 exhibitors, this expo is the only one devoted specifically to converters. Whether you’re looking for co-manufacturers, equipment, suppliers or related services, this virtual event will help you to make the right connections necessary to grow your business.

Keynote Presentation

Keynote speaker, Barb LeMue, president and CEO of New North, will kick off the event with a discussion on the importance the GRB converting industry has on the global packaging economy at 11:00 a.m. Eastern/10:00 a.m. Central.

Plant Tour

The virtual tour of the Paper Converting Machine Company facility is on August 24, at 2:00 p.m. Eastern/1:00 p.m. Central. Check out demos of the Fusion C flexographic printing press, Meridian Elite laser anilox cleaner, and Ares 400-SUP pouch machine.

This is the best opportunity to:

- Watch product demos from converters of paper, tissue, film, laminates and nonwovens
- See the best in coating, laminating and engineered materials
- Discover the latest equipment and automation innovations
- Talk with experts in intellectual property, patents, testing and support
- Connect to potential contract converters and manufacturing partners
- Learn more about advances in ultrasonics and adhesives
- Explore options for process advancements in flexible packaging

Converters Expo will be online and open for business 24 hours a day, 7 days a week. The virtual event kicks off on August 24-25 and will remain open and accessible through March 2021.

Our events team is always happy to assist with any questions before, during and after the event. Thank you for joining us,

Glen Gudino

Afinia Label
Mike Atkins
mikea@afinia.com, 952-556-1600, www.afinialabel.com
We offer a complete line of printing and finishing equipment for label and flexible material. Finished product is suitable for pouch making or direct to package application.

AIS Gauging / INDEV-ACT
Paul Smith
paul.smith@withimsales.com, 847-558-9860, www.withimsales.com
Paul Henke
paul.henke@bstna.com, 608-310-8150, www.accuweb.com
AccuWeb optimizes efficiency & productivity on every machine. Under both the AccuWeb and BST brands, our systems precisely guide a large range of substrates in virtually any web process, and will contribute to lower set up waste, reduced machine downtime and minimal downstream processing and waste.

ADDEV Materials Converting
Isabelle Clouet
i.clouet@addevmaterials.com, 702-273-8310, www.addevmaterials.us
As a value-added converter of high performance materials (foams, tapes & adhesives, films), ADDEV Materials provides its customers with the best solutions respecting your unique requirements (specifications, tolerances, materials properties, format and cuts) in the automotive, industrial, construction, medical, energy and railway sectors.

Adhesives Research
Bonnie Richter
rbrichter@arglobal.com
Adhesives Research is the global leader of High Performance Repulpable and Non-Repulpable ARclad® Splicing Tapes. We provide superior quality products for applications within printing, pulp & paper, lamination, extrusion, coating, sheeting and flexible packaging. Our featured high-speed, flying splice product is ARclad 0082 for “High Slip/ Low Surface Energy film”.

Advanced Greig Laminators
Dan Haan
dhaan@aglinc.com, 608-846-1025, www.aglinc.com
Advanced Greig Laminators, Inc. (AGL) is a U.S. based engineering and manufacturing facility specializing in custom designed Heavy Duty industrial and wide format digital imaging laminators. Working widths of 14” to 106”. Roll-Roll, Roll to Sheet, Sheet to Sheet, Hot and Cold applications. Web Guiding, HMI, Auto Tensioning.

Anilox Roll Cleaning Systems
Amanda DiGiovanni
amanda@aniloxrollclean.com, 800-699-3722, www.aniloxrollclean.com
ARCS offers ECLIPSE® LASER CLEANING SYSTEMS, the most advanced technology available for cleaning all types of printing and coating rolls. No cleaning media is required and NO waste is generated. Branch offices located in Philadelphia, Charlotte and Chicago. Equipment sales and on & off-site anilox roll cleaning services available.

ASHE Converting Equipment
Zlatko Vujic
zvuic@asheusa.com, 941-799-1243, www.asheconvertingequipment.com
ASHE Converting Equipment manufactures a full range of outstanding slitting/rewinding machinery for flexible materials, including finishing equipment for the label and narrow web industries. ASHE makes 90% of machined parts in house. We are US based, family owned company with sales/service/assembly site in the USA. And 1,250 machines installed worldwide.

ASI, Division of Thermal Technologies
Jason Allington
jsa@asitti.com, 920-548-1904, www.asitti.com
ASI designs and manufactures drying systems for the continuous process and converting industries. Customers seek out our quality-constructed, reliable products because of our engineered, made-to-order solutions that are tailored to each customer’s needs. We also design and fabricate an array of peripheral components to simplify your project including platforms, structural supports, and more.
VIRTUAL EXHIBITOR PROFILES

Associated Machine Design, Inc (AMD)
Jeff Taylor
sales@associatedmachine.com, 920-712-0050,
www.associatedmachine.com
Associated Machine Design, engineers and manufactures custom slitting and winding machinery including the Evolved line of REM Slitters/Rewinders. For over 30 years REM has provided industry leading center surface slitter/rewinder technology. To see our line of rewinds & unwinds visit www.associatedmachine.com, email, sales@associatedmachine.com, or call us at (920) 712-0050.

Atlas Converting North America Inc.
Bryan Reilly
bryan.reilly@atlasconverting.com, 262-490-8599,
www.atlasconverting.com
Atlas Converting Equipment is considered worldwide as a leading supplier of primary & secondary slitter rewinder technology for a wide range of flexible materials, mainly destined for use in the global packaging industry. With over 4000 machine installations in over 80 countries, we partner with you for total success.

AVT, Inc.
Misha Levchenko
847-404-0012
MishaL@avt-inc.com
AVT is the global leader in print process control, quality assurance, and press control for the packaging, labels, and commercial print industries. Backed by state-of-the-art technology and field-proven solutions, more than 8,000 AVT systems are installed at customer sites worldwide. Our integrated solutions empower converters and printers to enhance print quality via automatic online and offline inspection and sophisticated color measurement and control, synchronized with other vision-centric press controls.

BachKnives
Ken Wardrop
Info@bachknives.com, 516-621-3100, www.bachknives.com
BachKnives offers a comprehensive line of shearing and slitting knives for a wide range of industrial converting machines. Our products are manufactured from the finest European steels using state-of-the-art finishing equipment and heat treating facilities and are backed by a team with 70+ years of industrial knowledge.

Bank First, N.A.
Bill Bradley
bbradley@bankfirstwi.com, 920-609-3401,
www.BankFirstWI.bank
Bank First is a relationship-based community bank focused on providing innovative products and services that are value driven. Through a combination of acquisitions and de novo offices, the bank has expanded to serve the community banking needs of those throughout Wisconsin. Our growth has been achieved through our relationship-based model of banking. We take pride in knowing our customers on a personal level and working together to create value for themselves, their families, and the communities in which we live.

Baum Machine Inc.
Alex Jerabek
sales@baummachine.com, 920-738-6613, www.baummachine.com
Servicing a wide variety of industries, Baum Machine is experienced in roll building/re-conditioning for paper mills, converting equipment OEM’s, and various other roll users. We have the capabilities to provide a wide array of precision parts, including frames, bases, bearing housings, and shafts. Engineering and design services also available.

The Boldt Company
Paul McCann
920-574-0421
paul.mccann@boldt.com
Safety. Precision. Performance. Boldt provides complete construction services; routine and emergency maintenance; equipment installation and alignment services throughout the United States. Our qualified and caring tradespeople understand the value of equipment and the critical importance of proper installation and alignment to maintain production and protect the lifespan of your investment.

BST North America
Paul Henke
608-310-8150, paul.henke@bstna.com,
www.bstna.com
BST North America is the only supplier in the market to offer you the whole range of quality assurance from a single source. With our global sales, manufacturing and service network, we are always available where you need us. Our experienced teams develop solutions for every application. You also benefit from the products of our strong brands AccuWeb and BST ProControl.

Cadence Inc.
Dave Nelson
david.nelson@cadenceinc.com, 540-248-2200,
www.cadenceblades.com
Cadence is the leading manufacturer of high performance razor blades with 35 years of blade manufacturing experience – maker of Endurium and Optima blades, the most trusted brands in the industry. Contact us to find out how you can start testing these superior blade options today!

Capital Adhesives & Packaging Corp.
Rick Oswalt
sales@capitaladhesives.com, 317-834-5415,
www.capitaladhesives.com
Since 1987, Capital Adhesives has been the premier adhesive and coating manufacturer. Our mission is to provide best-in-class technical know-how and support to our customers, giving them a competitive edge in the marketplace. We have developed a complete portfolio of specialty formulated adhesives and coatings for a variety of markets including printing, folding carton, lamination, and corrugation.
Leaders in ROTARY DIE CUTTING & Laminating Solutions

Schedule Your Live RDC Demo

www.converting-systems.com
Catbridge Machinery designs and manufactures state-of-the-art web converting solutions. Products range from innovative, highly-productive slitter rewinders to converting process lines integrating coating, laminating or other functions. Starting with proven designs, we offer exactly as much customization as necessary to build top-quality converting machinery that meets your needs quickly and efficiently.

Charter NEX Films
Apurva Shah
ashah@charternex.com, 864-360-1248, www.charternex.com
Charter NEX Films is one of North America’s fastest growing producers of high performance specialty films used in flexible packaging and other critical end-use applications such as food, medical, protective, and automotive. Our high-speed to market approach, deep technical expertise, and market vetted solutions of films for packaging enable us to be a true partner in your success. We are also proud to have launched an award winning line of sustainable solutions – GreenArrow™. This portfolio has films made from renewable / bio-based sources, recyclable high barrier solutions, and films which incorporate high percentages of FDA-compliant post-consumer recycled resin.

Chase Machine and Engineering Inc.
Guy Gil
guygil@chasemachine.com, 401-821-8879, www.chasemachine.com
For over 65 years Chase Machine and Engineering has been designing and building custom converting machinery for film, foil and woven non-woven fabrics. We utilize 3-D modeling to design equipment such as Unwinds/Rewinds, Slitters, Laminators and Festooners. Chase specializes in integrating technologies such as Ultrasonics, Glue Dispensing and Thermal bonding.

Clysar, LLC
Joan Current
joan.current@clysar.com, 563-259-3265, www.clysar.com
Clysar, LLC is a leading manufacturer of high-performance polyolefin shrink films, used for a wide variety of packaging applications including e-commerce, consumer packaged goods, fresh produce, bakery, frozen pizza, office supplies, hardware and automotive. Clysar offers the packaging industry’s most comprehensive, customizable line of industry-leading shrink films, all made in Clinton, Iowa.

Coast Controls Inc.
Kyle Koontz
sales@coastcontrols.com, 941-355-7555, www.CoastControls.com
Coast Controls, Inc., manufactures the world’s only All-Air web guiding system as well as electromechanical web guiding systems to accommodate virtually any application. With a three-decades-long history of producing precision rollers, unwind, and rewind systems lead Coast Controls to now offer turnkey roll-to-roll converting systems for a wide variety of applications.

Contiweb
Chuck Irons
chuck.ions@contiweb.com, 800-681-0121, wwwcontiweb.com
Contiweb is a renowned manufacturer of splicers, dryers and finishing equipment for heat set web offset applications, unwinders, rewinders and fluid applicators for digital inkjet web presses and of the Contiweb Thallo hybrid web offset press for flexible packaging and labels.

Contract Converting LLC
Robert Saari / Laura Yaeger
bsaari@contractconverting.com, 920-757-4000, www.contractconverting.com
Provides precision Slitting & Rewinding of various products for a wide array of Markets. The Roll Express program carries a large slit inventory of non-pressure sensitive tag & label stocks available for shipment within 24 hrs. Custom Slitting Services provide “outsourced” slitting & rewinding for a wide range of printed and unprinted products.

Conversource Inc.
Keith Walker
KeithW@Conversource.com, 800-808-1565, www.conversource.com
America’s supplier to the flexo industry, Conversource keeps your presses running, streamlines supply chains, improves print quality and helps you grow. Conversource is a 3M Premier Service Distributor, and represents Daetwyler, tesa and other brands featuring mounting tapes, splicing tapes, doctor blades, and more. Count on Conversource for Same Day Shipping, Custom Cutting, Custom Stocking and Freight Cost Management Services.

Converted Products, Inc.
Scott Chalmers
schalmers@convertedproducts.com, 414-354-4433, www.convertedproducts.com
Since 1993, Converted Products has provided quality, creative and reliable contract converting services ensuring your products are in trusted hands. From slitting to spooling to hot-melt lamination, Converted Products is more than your converter; we are your partners.

Custom Precision Bearings Inc.
Charles Foley
cfoley@cpbearings.com, 765-482-3542, www.cpbearings.com
Manufacture and supply a full line of ultra-precision double row spherical bearings, housings with bearing TIR as low as .000025. Specialize in building spherical bearings to meet specific custom design requirements. We also provide class B repair services for spherical bearings. Locating services for hard to find bearing components.

DCS USA Corporation
Anne-Sophie Dorey
asd@converting-systems.com, 330-685-6320, www.converting-systems.com
As leader in specialty rotary die-cutting, laminating & laser cutting solutions, DCS offer the conception freedom to solve problems materials & specifications that are considered unimaginable with conventional equipment. Capabilities include servomotor controlled stations, highest accuracy on the market, unique CCD camera vision systems and closed-loop tension control.
Delta ModTech
Tom Giles
tgiles@deltamodtech.com, 763-755-7744, www.deltamodtech.com
Delta ModTech designs and builds innovative converting, packaging and coating equipment for diagnostics, transdermal, wound care, medical, pharmaceutical, security, battery, RFID, printed electronics, label, consumer and automotive industries. Delta ModTech systems are designed and engineered to meet your application requirements, improve your profitability, and reduce your risk.

Dienes Corporation
Paul Smith
Slitting Products and Systems High Precision Knife Blades, Knife Holders, and Slitting Systems, Airshafts, Chucks, Brakes, Edge Trim Systems, QuikSet automatic simultaneous positioning systems, Easy to set up manual positioning, High speed crush cut holders, Front loading crush cut holders, Narrow slit width holders, custom retrofits, knife regrinds, etc. www.dienesusa.com

DIP Co.
Miles Johnson
mjohnson@dipworldwide.com, 970-874-2852, www.dipworldwide.com
DIP Co designs and manufactures disposable ink pan and ink fountain liners, drip trays, and ancillary items for the printing industry. Since 1984, our goal has been to help press operators limit downtime by eliminating the need to wash ink pans and trays. By utilizing DIP Co products, operators stand to cut ink station clean-up times by 50% or more. These savings equate to gains of up to six weeks of added press production per year. DIP Co provides products for narrow, mid, and wide-web flexo, gravure, coating, and offset “printing with manufacturing capabilities of up to 127.9” X 89”.

Dotec Roll Handling bv
Henry Behnke
hbehnke@dotec.nl / sales@dotec.nl, 609-915-8409, www.rollhandling.com
Dotec Roll Handling bv design and manufacture the widest range of roll handling solutions for the flexible packaging, label and nonwovens market. The roll handlers lift, tilt and/or rotate rolls. They bring speed, comfort and efficiency in an ergonomic and safe roll handling process. Weight range 30 to 1300Lbs.

Double E
Scott Conley
sconley@ee-co.com, 508-588-8099, www.ee-co.com
The Double E Family of Converting Specialists including Epoch, Appleton, Convertech and Schlumpf offers products for the paper, film and foil web converting/packaging industries. Products include core chucks, core shafts, safety chucks, brakes, web guides, rollers, core cutters, material handling, core plugs, reel spools, knives, roll stands and slitting modules.

Eaglewood Technologies, LLC
Peter Mulheran
peter@eaglewoodtech.com, 952-922-2910, www.eaglewoodtech.com
Eaglewood Technologies is the recipient of the FTA Technical Innovation Award and finalist of the Label Industry Global Award for Innovation. We are the anilox roll cleaning expert with a solution for every flexographic printer. We also offer mobile cleaning, which brings our sophisticated technology to your door.

Elite Cameron, Inc.
Rob McNamee
rmcnamee@elitescameron.com, 207-894-7016, www.elitescameron.com
Elite Cameron is a world leader in Slitting, Hot Melt Coating, Laminating and Core Cutting Machinery. With over 100 years of experience, we design and manufacture our equipment to process a wide variety of materials for a broad range of industries.

Elsner Engineering Works, Inc.
Jay Roth
eew@elsnereng.com, 717-637-5991, www.elsnereng.com
Founded in 1934, Elsner Engineering Works, Inc., has earned a worldwide reputation for leadership in the design and manufacture of a wide range of converting equipment for the paper, film, foil, filtration, medical and nonwovens industries. Virtually every type of consumer roll product can be wound, rewound, packaged, or folded on an Elsner-built machine.

EMT International/Rotocontrol
Louis DiNaf
lnaf@emtinternational.com, 920-468-5475, www.EMTInternational.com
EMT International & ROTOCONTROL finishing machines are designed for label inspection, slitting, rewinding, die cutting, overprinting, digital and booklet printed labels. Available globally, ROTOCONTROL offers solutions from basic rewinders to feature-rich, sophisticated models with multiple options while maintaining the highest quality through ease of use, absolute control and a focus on operator efficiency.

Erhardt+Leimer, Inc.
Jerry Leonards
j.leonards@erhardt-leimer.com, 864-764-8064, www.erhardt-leimer.com
Providing world’s best web guiding solutions, sensors, load cells for tension monitoring / closed loop tension control, web cleaning (contact + noncontact), non-nuclear film thickness / basis weight measurement, 100% print inspection, surface defect detection and corona treaters, worldwide for over 100 years - we cover the world from 17 locations around the globe.

esseCI Flame Treaters
Stefano Mancinelli
s.mancinelli@essesciinet.net, b.mikolenko@essesciinet.net, +39 348 491 2596, 585-704-8606, www.flametreaters.com
esseCI srl is an italian company, working, since 1969, in the field of polyolefins and other substrates surface activation. We are world leaders in flame treatment of BOPP (bioriented Polypropylene, up to 10.5m wide) and of materials as Paper, Paperboard, Textiles, Aluminum, Steel, Polyolefins, PET, PVF in converting applications and in the automotive sector (bumpers, dashboards and 3D components pre-treatment).
ETI Converting
Richard Hoffmann
rhoffmann@eticonverting.com, 450-641-7900, www.eticonverting.com

ETI Converting is a Canadian manufacturer of in-line silicone and adhesive coating and printing equipment named Cohesio. The Cohesio can convert any type of paper, board or film into 100% inspection systems for a variety of print products including labels, inserts, folding cartons, and blisters. Our technology helps ensure product quality throughout the entire printing process - from your first artwork file to finished product.

EyeC-America LLC
Mauro Consalvi
mauro.consalvi@eyec-america.com, 330-644-6841, www.eyec-america.com

EyeC-America specializes in print inspection systems. We offer file-to-file comparison, print sample testing and 100% inspection systems for a variety of print products including labels, inserts, folding cartons, and blisters. Our technology helps ensure product quality throughout the entire printing process - from your first artwork file to finished product.

Faustel Inc.
Rick Ruenzel
rick.ruenzel@faustel.com, 262-253-3333, www.faustel.com

Faustel is the global leader in custom converting technology, with expertise in coaters, laminators, winding, splicing, and precise handling of papers, films, foils and non-wovens. Faustel’s in-house Technology Center is a customer resource for product and process development. Your complete equipment solution partner for medical, pharmaceutical, industrial and consumer products.

FESTO
Mark Schuster
customer.service@us.festo.com, 800-963-3786, www.festo.us

For over 40 years in the US and 80 years globally, Festo has been a positive force for manufacturers. Our passion is automation - creating intelligent automation solutions that transform the way people work, the way companies compete. Ultimately, it’s about continuously stimulating progress. Our aim is to help our customers make their products faster, smarter and more precise. Rather than surviving, they can thrive as industry leaders. And when our customers win, we win.

Filmquest Group Inc
John Felinski
Sales@petfilm.com, 630-226-9800, www.petfilm.com

Filmquest Group is the largest merchant converter of polyester film in the USA supplying the flexible packaging market exclusively with Questar® Polyester Film, complemented with a full range of value added products. Our portfolio includes soft touch matte, high barrier, heat-sealable, anti-fog, shrink, anti-static, Plystar premium Lidding Film and more.

FINZER ROLLER
Pete Van Handel
pvanhandel@finzerroller.com, 888-486-1900, www.finzerroller.com

Rubber Roller manufacturer & specialty product supplier to the Flexible Packaging industry with multiple manufacturing facilities. Capabilities include new, recovered or regrind of rubber and polyurethane rollers. In-house machine shop services include new cores & repairs. Specialty products include rotary brushes, pin rollers and high release coatings.

Flexo Wash LLC
Bill Malm
bm@flexowashus.com, 920-540-7676, www.flexowashus.com

Flexo Wash technology helps customers print better. Flexo Wash provides “Leading Cleaning Technology”, exclusively offering cleaning systems for every need, with over 4,000 installations around the world. Today, the Flexo Wash portfolio includes laser and liquid anilox cleaning, plate and plate sleeve washing, rotary screen cleaning technology, as well as the original parts washing machines.

Fluke Reliability
Fluke Reliability
fds-sales@fluke.com, 425-347-6100, www.fluke.com

Maintenance leaders must keep their companies up and running while preparing for the future greater operational efficiencies, IIoT integration, and predictive maintenance. Our portfolio of Fluke and PROUTECHNIK tools, eMaint CMMS, Fluke Connect condition monitoring software, services, and more solve today’s problems and provide a roadmap to a digitalized future.

FMS USA, Inc
Paul Smith

Fox Converting
Dan Van Goethem
daniel.vangoethem@foxconverting.com, 920-434-5272 ext 547, www.foxconverting.com

Fox Converting is a wide web printer, coater, laminator and custom converter and have been in the converting business since 1962. We have experience with paper, nonwovens, DRC, foil, film and laminates. Our expertise in converting is sheeting and pinch bottom bag manufacturing. Our facilities are SQF certified. Markets served include Food Service, Medical, Dental and Specialty Markets.

Fredman Bag Company
Frank Crivello
fcrivello@fredmanbag.com, 414-462-9400, www.fredmanbag.com

Fredman Bag is a high quality manufacturer of consumer goods packaging with printing up to 8-color process, laminating, slitting, and converting capabilities. We serve many industries, including paper and contract manufacturing.

FRONTIER – A Delta ModTech Company
Tom Giles
tgiles@deltamodtech.com, 763-755-7744, www.frontiercoating.com

FRONTIER – A Delta ModTech Company From lab scale to full production, Frontier can help you develop the best coating and drying equipment for your application. Coating technologies include slot die, patch and pattern coating, gravure, direct/offset coating, mayer rod, knife-over-roll, comra coating, screen printing and extrusion. Delta ModTech and Frontier offer innovative manufacturing solutions worldwide.
**Fusion Integrated Solutions, LLC**
Dante Jones
djones@fusion-etc.com, 513-300-1911, www.fusion-etc.com
Fusion is a client-focused engineering firm which leverages its superior understanding of its Client’s needs to provide proven and innovative technology and methodology solutions at a great value. Fusion’s services include Mechanical, Process/Piping/Plumbing, Electrical & Control Systems, Civil-Structural Engineering & Design/Drafting. Fusion also provides Project Mgmt. and Construction Supervision services.

**Goldenrod Corporation**
David Sullivan
dsullivan@goldenrodcorp.com, 203-723-4400, www.goldenrodcorp.com
Goldenrod and our affiliate (Svecom) are the largest manufacturers of core holding accessories in the world. We developed the multi-bladder air-shaft and offer the most variations. We will work with you to design the best solution and offer a full line of shafts, chucks, and roll / shaft handling equipment.

**Heiber + Schröder USA, Inc.**
Vince Piagentini
v.piagentini@us-hs.com, 847-639-8443, www.us-hs.com
Heiber + Schroeder USA is the North American representative of Heiber + Schroder GmbH, the market leader in Tray Forming and Window Patching equipment. We provide sales, technical support, service, and spare parts from our location in Cary, IL.

**Heraeus Noblelight America LLC**
Jeff Fjeld
jeff.fjeld@heraeus.com, 301-527-2660, www.heraeus-noblelight.com
Heraeus Noblelight is one of the technology- and market-leaders in the production of specialty light sources and systems. The organization develops, manufactures and markets infrared emitters, UV curing and LED systems and solutions for applications in industrial manufacture, environmental protection, medicine and cosmetics, research, development and analytical measurement techniques.

**IKO International Inc.**
Shin Harumoto
mwo@ikonet.co.jp, 800-323-6694, www.ikont.com
IKO designs and manufactures motion products that meet strict quality and performance standards. Our Linear Roller Ways can handle heavy, fluctuating loads for stable, reliable operation and offer superior dust protection with our optional C-Wiper. And IKO’s innovative C-Lube technology, available in many of our products, provides long-term, maintenance-free operation.

**Jemmco, LLC**
Melissa Lang
sales@jemmco.com, 262-512-9559, www.jemmco.com
Jemmco is excited to be celebrating our 20th year in business and our 20th year as a leading supplier to the extrusion and web converting industries. Jemmco offers a full line of Rollers & Roller Coverings; Quality Control Products, including Dyne Pens & Solutions; Maintenance Equipment & Supplies, including Web Cleaning Systems; and Processing Equipment & Supplies.

**JMIS – Jeff Messenger Industrial Sales**
Jeff Messenger
jeffm@messengersales.com, 920-301-5637, www.messengersales.com
JMIS, Jeff Messenger Industrial Sales, is a manufacturer’s representative group providing products for the print, paper and packaging industries. Companies that JMIS represent include EMT International Air Shafts, punching and slitters, Coast Controls web guides, Montalvo Tension Controls, Praxair anilox rolls, Burckhardt pin perf, Kongskilde trim removal and Slittsec slitter automation.

**INFICON**
Bill Burnard
INFICON is one of the world’s leading developers & suppliers of leak detection devices. With years of leak testing expertise, INFICON has now created the Contura S400® Leak Detector, which provides the packaging industry with a unique solution for ensuring package seal & integrity by detecting leaks in flexible packages.

**ISRA VISION**
Michael Preininger
mpreininger@isravision.com, 470-328-1967, www.isravision.com
For more than 35 years, ISRA VISION has been the leading manufacturer of high-speed optical surface inspection systems for quality control in plastic film, printing and converting. Covering the full range of inspection solutions across various production steps, the systems detect defects for removal, improve processes and increase yield.

**ITW Pillar Technologies**
Paul Smith
Corona and Plasma Treaters Corona and atmospheric plasma treatment systems for narrow and wide webs of polymer films, foils, papers, nonwovens, textiles, elastomers, fluoropolymers and other materials to improve the adhesion of inks, coatings and adhesives, and provide surface cleaning. We offer bare or covered roll systems, dual dielectric corona system, or a high-density atmospheric plasma treatment system.

**Virtual Exhibitor Profiles**
AUGUST 24-25, 2020 | WWW.CONVERTERSEXPO.COM
Micro-Leaks
The Hidden Enemy of Cheese Packaging

Mold complaints?
Missing leaking packages?
Make your testing as easy as pass/fail.
- Non-destructive leak test
- Finds leaks as small as 10 Microns in diameter
- Quantifies how much each package leaks
- Only about 12 seconds per test

VIRTUAL EXHIBITOR PROFILES

Joral LLC
Katie Klepper
kklepper@joralllc.com, 262-378-5506, www.joralllc.com
Joral provides sensors for mobile and industrial applications. Rugged shafted rotary position sensors, non-contact rotary position sensors, non-contact linear position sensors (string pot replacement), and 3-Axis incline sensors.

Kampf Machinery Corporation
Michael Schubert
michael.schubert@kampfusa.com, 860-640-0040, www.kampfusa.com
Kampf Machinery is the world leader in innovation and technology in providing winding, slitting and rewinding machinery to the world’s converting industry. Segments that are served are BOPP, BOPET film manufacturing, flexible packaging, converters of paper, plastic film and foil laminates, imaging and aluminum foils. We are Kampf Machinery.

LAEM IMS – A BRAND OF IMS TECHNOLOGIES
Maurens Amaral Gomes
m.gomes@goebel-ims.com, 813-892-7183, www.laemsystem.com
LAEM IMS, a brand of IMS TECHNOLOGIES, is specialized in the manufacturing of machinery for the converting and flexible packaging industries, in particular twin-shaft and high productivity turret machines as well as compact slitter rewinders and automation machinery for paper, film, flexible packaging and coated materials.

L&S Electric Inc.
Dan Schultz
dschultz@lselectric.com, 920-585-2126, www.lselectric.com
L&S Electric offers a wide variety of services: Rotating Apparatus Repair, Power Services, Reliability Services, Rail Equipment Repair, On-Site Rotating Apparatus Services, New Equipment Sales, and Power Control Solutions.

Leigh Sheeting and Converting
Britt Rashid, B. Thomas Dobbie
br@leighsheetingconverting.com, td@leighsheetingconverting.com, 315-455-6636
www.leighsheetingconverting.com
Leigh Sheeting & Converting USA provides a wide range of sheeting, finishing and various converting solutions to fit any niche or need your business relies on. From dual rotary sheeting to slitting, winding, printing and wrapping technologies. Leigh can provide the solution your converting and finishing operations require.

MAAG Automatik Inc.
Paul Smith
Gear Pumps, Filtration Systems, Plastics Recycling Systems High quality gear pumps and continuous melt filtration systems for conveying and cleaning polymer melts. Strand pelletizing systems from laboratory sizes to high throughput rates for all applications. Customized underwater pelletizing systems for spherical pellets of highest quality. Pulverizing systems; specialists for size reduction.

Mahlco America Inc.
Eric Reber
sales@mahlcoamerica.com, 864-576-6288, www.mahlcoamerica.com
Mahlco provides superior on-line measurement and control solutions for the converting industry that include basis weight, coating add-ons, thickness, moisture, and density along with the most customer-focused technical support in the industry.

manroland Goss web systems Americas LLC
Ron Sams
612 801-8687, ron.sams@manrolandgoss.com
VARIOMAN is the variable repeat offset based printing solution from manroland Goss Web Systems (MGWS) that delivers lowest cost production for film and paperboard conversion. MGWS also offers engineered solutions for all brands of packaging printing equipment relating to electronic / controls obsolescence including inline controls for color register, density, and image length.

Maxcess
Benjamin Bowlware
sales@maxcessintl.com, 405-755-1600, www.maxcessintl.com
Having a global presence means more than a responsive, convenient sales presence. It means a one-stop-shop for your web handling needs. With manufacturing and sales locations throughout North America, Europe, India and China, Maxcess offers an unrivaled presence worldwide. We are there where you need us, when you need us, anywhere in the world. By combining more than 400 years of global service and support across our storied brands of RotoMetrics, Fife, Tidland, MAGPOWER, Webex, Valley Roller, Menges Roller and Componex, nobody can match our expertise in web handling applications, innovation or customization.

Mica Corporation
Jessica Spadaccino
info@mica-corp.com, 203-922-8888, www.mica-corp.com
Mica Corporation is a leader in supplying water-based primers and coatings to the flexible converting industry. Since 1971, we have been dedicated to the development, manufacture, and marketing of environmentally friendly, easy to use, high-performance products. Service, quality, and commitment have made MICA products the industry standard for manufacturing flexible packaging materials.

MWES also offers engineered solutions for all brands of packaging printing equipment relating to electronic / controls obsolescence including inline controls for color register, density, and image length.

Midwest Engineered Systems
Steve Bougie
steve@mwes.com, 414-688-7784, www.mwes.com/web-handling
We design, develop and build custom web handling and converting systems for a variety of roll handling, winding, cutting and coating applications. MWES also services and upgrades both our own systems and others to get the absolute best performance from your systems.

Miron Construction Co., Inc.
Dan Goymerac
dan.goymerac@miron-construction.com, 920-969-7004, www.miron-construction.com
Miron Construction is headquartered in Neenah, WI, with two offices in Green Bay, one in Wausau, Madison, Milwaukee, Eau Claire and Cedar Rapids, IA. Miron provides general construction, design-build and EPC services to the pulp/paper, plastics, printing, tissue, child care and OSB industries. See us at booth #82/
VARIOMAN
A new dimension in packaging printing

#flexibility champion
create maximum flexibility in format design

#technology leader
profit from fastest set-up times & state of the art automation

web offset makes the difference
boost quality & cut costs

#green printing
focus on sustainability

#lifetime partner
join a strong business partner for most challenging tasks

www.manrolandgoss.com
Modular Web Solutions  
Ryan Mathison  
mwsmarketing@modularwebsolutions.com, 920-215-7373, www.modularwebsolutions.com  
Modular Web Solutions has an extensive background in producing custom modules for a wide variety of industries and applications. This wide blend of experience continues to provide the foundation needed to successfully tackle unique challenges with speed and proficiency. Modular Web Solutions can deliver a complete solution to meet your timeline. Our offerings are focused on designing and manufacturing customized modules to meet and exceed your needs. Contact us to explore your challenge!

Monarch Instrument  
Neil Dunn  
ndunn@monarchinstrument.com, 603-883-3390, www.monarchinstrument.com  
The ability to stop-action ANY rotating, reciprocating, or linear traveling movement. The IllumiNova™ provides stroboscopic flashes that are the brightest, fastest (one million/min), and easiest to control for human acuity and Camera-Vision inspections using Line-Scan, Area-Scan, or handheld spot-scans in White and Ultraviolet LED arrays. The Professionals Choice for over 40 years.

Motion Controls Robotics Inc.  
James Skelding  
sales@motioncontrolsrobotics.com, 419-334-5886, www.motioncontrolsrobotics.com  
Founded in 1995 and celebrating 25 years of continuous growth, Motion Controls Robotics Inc provides full service robotic solutions from concept to installation. As an exclusive FANUC Level 4 Certified Servicing Integrator, customer service and support keep customers coming back for new systems. MCRI continues to develop technologies and new applications.

New Era Converting Machinery, Inc.  
John Looser  
john.looser@neweraconverting.com, 973-413-4605, www.neweraconverting.com  
New Era Converting Machinery is a world leader in processing equipment for the web converting industry. From simple components and sections to fully integrated high-speed automatic process lines and systems, New Era can engineer a solution to meet your requirements. No matter how small or how large your needs are, look to New Era to provide you with a solution engineered for Maximized Productivity. Contact us at 201-670-4848 or visit www.neweraconverting.com

Neway Packaging Corp.  
Kerry Balfour  
kbalfour@newaypkg.com, 602-349-8928, www.newaypkg.com  
Neway Packaging is committed to partnering with our customers for mutual success and growth. We accomplish this by providing quality products, innovative solutions, excellent customer service, and a team of dedicated professionals. With 7 distribution and service centers nationwide, we are poised to be your industrial packaging partner.

Nichols Paper Products Company, Inc.  
Brian Dahlin  
sales@nicholspaper.com, 920-833-6895, www.nicholspaper.com  
Custom manufacturer providing wide and narrow web flexographic printing and converting solutions, including laminating, coating, slitting, rewinding, sheeting, creping, waxing, and fabricating. Pilot services are also available. Substrates: (Paper) - Kraft, Tissue, Linerboard, Chipboard and Synthetic (Film) - PE, PP, PET and Nylon (Nonwovens) - Airlaid, SBPP, PET, Rayon, Nylon, Velcro.

NSC USA Inc.  
Amaury de Laforcade  
amaury@nscusa.com, 803-548-7233, www.nscusa.com  
Specialized in Non-stop Unwinding and Rewinding, slitting, laminating, roll handling and roll packaging with options available. We also offer equipment for the production & re-cutting of paper cores, and can forming & closing.

OASIS Alignment Services  
Justin Moker  
justin.moker@oasisalignment.com, 920-460-9543, www.oasisalignment.com  
Precision machine alignment significantly reduces or even eliminates, many issues converters face on a daily basis. By aligning your needs with our solutions, OASIS Alignment Services helps you to improve operating efficiency and give you back time to focus on what matters most: people, accuracy, quality, productivity. Visit www.oasisalignment.com.

OMET Americas Inc.  
Chris Baldwin  
sales@ometamericas.com, 847-621-2369, www.ometamericasinc.com  
OMET Americas is the US branch of the OMET Group, Italy. The target of OMET Americas is to provide customer service, technical support and sales across all North America.

Paper Converting Machine Company  
Rodney Pennings  
920-491-6674  
Rodney.pennings@pcmc.com  
PCMC offers a complete range of flexographic presses, digital solutions, and laser anilox cleaners serving the flexible packaging, prime label, and carton converting industries. Now part of PCMC, The Hudson-Sharp Machine Company is a world-leader in the design and manufacture of plastic bag making machinery, pouch making machinery and reclosable packaging solutions.

Virtual Exhibitor Profiles

Parkinson Technologies | Dusenbery
Tom VanEaton
tvaneaton@parkinsontech.com, 612-418-8681,
www.parkinsontech.com

Parkinson Technologies’ Dusenbery® brand has set converting industry standards for quality, performance, and productivity for six decades. Our latest line of MasterSlit™ slitter rewinders continues this tradition by using state-of-the-art components and proven winding and web handling technologies to deliver equipment that is safe, ensures quality, and improves productivity.

Pearl Technologies Inc.
Rick Santos
sales@pearltechnic.com, 315-365-3742, www.pearltechnic.com

Pearl Technologies is recognized by leading flexible packaging manufacturers for our line of converting products that improve safety and drive greater throughput in the line, delivering lower cost of ownership. Key products include a wide variety of punches and slitters, as well as attachments for punching, wicketing, sealing, perforating, and venting.

Perftech, Inc.
Kenneth Gill
kgill@perftechusa.com, 630-554-0010, www.perftechusa.com

Perftech, Inc. is a toll perforator of flexible materials. We use a variety of perforating and scoring technologies to deliver custom made solutions for your steam cooking, fresh cut produce, venting and easy open requirements. Technologies include; laser, hot needle, cold needle and flame perforation.

Polymag Tek, Inc.
Pete Byam
pbyam@polymagtek.com, 800-787-0830, www.polymagtek.com

OEM for innovative contact web, contact sheet and contact process roll cleaning systems under the ContactClean™ brand. We are a provider of static control equipment and non-contact web cleaning systems from Static Clean International. We also provide Contact Cleaning Roll (CCR) recovering and grinding services, technical services, and engineering services for equipment design and placement.

Printco Industries, LLC
Dave DeMille
ddemille@printco-industries.com, 920-865-7775,
www.printco-industries.com

Printco Industries is a leading manufacturer of Flexographic Printing Presses, Coaters, and Enclosed Doctor Blade Chambers since 1983. Narrow and Wide web integration. Servo drive and Servo deck control, Quick Sleeve Exchange Systems for Anilox and Plate mandrel, Drive interface. Doctor Blade Chambers in many volume levels for retro fit or for OEM. Contact Printco today.

Proton Products, Inc.
Greg Goss
greggoss@protonproducts.us, 770-853-1814, protonproducts.com/
Proton Products, the leading manufacturer of Non-Contact Speed and Length Sensors, will exhibit their newest design – the InteliSENS SL/SLR Mini. Proton’s InteliSens Mini sensors are Industry 4.0 Compliant, deliver the best performance/reliability, contain the most features, are available at a low cost to provide or a quick return on investment.

PureLoop /Withim Sales Corp.
Paul Smith
paul.smith@withimsales.com, 847-558-9860, www.withimsales.com,
www.pureloop.at/en/home

Plastics Recycling Equipment, Repelletizing Systems ISEC - Integrated Shredder Extruder Combination Repelletizing systems. Load it and leave it - Does not require “baby-sitting”. Roll feed, conveyor feed, hopper feed, etc. Handles a large variety of materials, reduces energy consumption and energy transfer thus producing higher quality pellets. www.pureloop.at

Quad Plus LLC
Bob Flynn
bflynn@quadplus.com, 815-724-2206, www.quadplus.com

Quad Plus is a single source engineering and technology partner for industrial control systems, solutions, and services. Our design team of electrical, mechanical, civil/structural, chemical, and controls engineers can help whether it is a new system build, upgrading a current system, or retrofitting an outdated system from beginning to end.

RKB Optoelectronics, Inc.
Bruce Dobbie
sales@rkbopto.com, 315-455-6636, www.rkbopto.com

RKB Designs, Manufactures and Supplies Splice Detection, Web Inspection, Control Automation and Custom Solutions for the detection of defects in all forms of web based products like paper, film, foil, non-wovens, and related allied industrial products.

Printco Industries

Preco, Inc.
Quinn Williams
qwilliams@precoinc.com, 715-247-3285,
www.precoinc.com

Preco, Inc. provides innovative and cost-effective solutions for converting applications and flexible packaging. We manufacture laser converting systems that are flexible, precise and process at very high speeds, automated die cutting equipment featuring the tightest tolerances for production and rotary systems that offer the most flexibility for registered web processing.

Packaging

SPONSOR

Racine Flame Spray, Inc.
Peter Patterson
ppatterson@racineflame.com, 262-994-8336,
www.racineflame.com

RFS is a leader in the thermal spray industry. We spray metals, ceramics, carbides, silicones, fluoropolymers and other materials for traction, wear, release, corona treating and many other applications. Coatings can be sprayed onto metals, composites and other materials. We offer on-site coating of winder drums, dryer cans and other large components.

www.voorwood.com • (530)365-3311
Retroflex, Inc.
Steve Van Dyke
steve@retroflex.com, 920-676-5724, www.retroflex.com
For 28 years, Retroflex has provided high quality flexographic printing and coating equipment to the top flexo printers and converters. Standard or complete one-up designs, narrow or wide web, Retroflex has the solution. Retroflex is also an important industry source of replacement doctor blades, end seals, and slitter blades. Visit our website www.retroflex.com and contact us today.

Roll-2-Roll Technologies LLC
Aravind Seshadri
sales@r2r.tech, 888-290-3215, www.r2r.tech
Most advanced and simplest to use sensor and controls in the industry for narrow and wide web applications, intermediate and terminal web guiding solutions, and web monitoring. Web guiding and monitoring solutions for edge, width and contrast applications. Retrofit solutions for outdated web guiding systems

Rossini North America, LLC
Robert Grace
As the world leader in carbon fiber bridge technology supporting high speed printing, Rossini continues with latest advancement FASTBRIDGE supplanting mechanical & hydraulic bridges. Used in tandem with our high value, tight-tolerance plate mount sleeves to provide best in class print fidelity. Sleeves - Adapters - C.I. Drum Cleaners - Storage Systems.

Rotation Dynamics Corp. (RotaDyne)
Dan O’Laughlin
dolaughlin@rotadyne.com, 773-491-3319, www.rotadyne.com
RotaDyne is one of the largest manufacturers of high quality rubber rollers, machined cores & sleeves, and elastomers with nine locations in North America. Complementing our core roller business, we have a comprehensive research and development department that is continually bringing new rubber and urethane elastomers to market.

Schenk Vision
Jamie Nutz
schenkmarcom@yahoo.com, 651-730-4090, www.drschenk.com
Schenk Vision specializes in automated industrial inspection systems that detect defects and irregularities on and within material. Schenk’s long-standing experience and innovative technology serves the film, plastic, nonwoven, textile, paper, glass, flat panel display, thin film solar module and semiconductor industries. Schenk inspection systems are used and trusted throughout the manufacturing process to increase yield, save time and money, and enhance your reputation for having a better product.

Siemens Industry, Inc.
Dominic Trinko
dominic.trinko@siemens.com, 608-406-5284, www.usa.siemens.com/converting
Siemens converting specialists combine segment, motion, and automation knowledge to provide complete, cost-effective solutions. As the converting industry evolves, more demanding requirements are placed on production rates, quality and flexibility. The wide range of pre-engineered solutions in Siemens’ Converting Toolbox significantly reduces engineering time with tested and fully functioning applications.

Simco-Ion
Customer Service
customerservice@simco-ion.com, 800-203-3419, www.simco-ion.com
Simco-Ion is the world’s leading manufacturer of static control and web cleaning products, including Teknek contact cleaners. We provide innovative solutions built for durability, longevity, and exceptional performance in a wide variety of converting applications. Our products are engineered to help you reduce costs, improve operations, and increase quality

SYNRAD Laser, a Novanta Co.
Jim LaPoint
james.lapoint@novanta.com, 781-266-5915, www.synrad.com
For 36 years, Synrad has delivered more CO2 lasers to industry than any other manufacturer. Synrad serves the converting on a broad range of materials at very high speeds. Synrad solves challenging applications with high performance CO2 lasers available in a wide range of options engineered for specific converting applications.

TANN Corporation
David Kerrigan
dkerrigan@tanncorporation.com, 920-766-3600, www.tanncorporation.com
TANN Corporation is a global leader in industrial air pollution control equipment. We design, install, service, and manufacture some of the world’s best air pollution control products including thermal oxidizers, energy recovery systems, and zeolite concentrators.

tesa tape, inc.
Customer Care
customercare@tesatape.com, 800-426-2181, www.tesatape.com
We are a leading manufacturer of pressure sensitive adhesives serving the appliance, automotive, building supply, electronics, industrial, paper and print, and transportation industries. With our reliable solutions and excellent service, we support industry partners in optimizing their processes and improving their products.

TGW International
Shawn Moore
sales@tgwint.com, 800-407-0173, www.tgwint.com
At TGW, we leverage our vast industry and product knowledge to manufacture the highest quality precision ground circular and straight knives for the paper, flexible packaging, film, foil, laminated, plastics and nonwoven industries. Our knives are manufactured to not only meet, but often exceed OEM standards, with custom options available.
Valley Grinding & Manufacturing
Tony Sattler
tsattler@valleygrinding.com, 678-910-1512, www.valleygrinding.com

Vetaphone North America
Ted Wolski
sales@vetaphone.com, 312-803-3691, www.vetaphone.com
Vetaphone is the leading supplier of corona and plasma surface treatment solutions for all applications in the web processing industry. We offer reliable, user friendly systems guaranteeing high-quality, uniform treatment of both conductive and non-conductive materials, as well as local aftermarket services delivering expert technical support and fast spare parts supply.

Voorwood
Jeff Novak
jnovak@voorwood.com, 530-365-3311, https://voorwood.com/
Since 1961, Voorwood has offered standard or custom high-quality, labor-saving machinery that is affordable, delivered on time, and defect-free. The consistent performance of our machinery has made Voorwood a trusted partner for woodworking, converting, and packaging professionals in the United States and Worldwide for over 50 years. Voorwood machinery and tooling is manufactured to customer specifications in the United States at our northern California facility. Our campus accommodates our sales, marketing, engineering, machine shop, manufacturing, and assembly to meet most any requirement.

Wikoff Color Corporation
Joe Kubasiak
joe.kubasiak@wikoff.com, 803-548-2210, www.wikoff.com
Fred Wikoff didn’t want to be just another ink company. He wanted to produce high quality, tailor-made inks and coatings for the most challenging avenues of the printing industry. He also wanted to form consultative partnerships with the highest level of service out there. Since 1956, that’s what we’ve done. Successfully producing a package that stands out on the shelf requires performance-based inks and coatings formulated to meet your specific needs. Wikoff Color takes pride in creating solutions for this demanding market.

Wintriss Engineering
Paul Smith
Surface Inspection Systems Wintriss Engineering is an industry leader in automated surface vision inspection systems. We continue at the forefront of industry 4.0 by developing solutions tailored to a broad range of applications from plastics, metals, nonwovens, paper, to coated and laminated composites. Our systems improve product quality, reduce scrap and yield losses, increase productivity, and deliver cost savings. Your Surface Inspection Experts - We See What Others Don’t!
