## OUR PASSION

is meeting your demanding packaging needs and that passion was ignited 30 years ago in a garage, with a father and son and a used flexographic press.

Today, 125 employee-owners are committed to continue pouring their passion into your packaging. Whether it is flexible packaging rollstock, pre-made pouches or pressure sensitive labels, we care about the details just as much as you do.

## ALWAYS MADE IN AMERICA

## GREAT PACKAGING IS OUR BUSINESS!

Labeltechnology  
Labels & Flexible Packaging

# GREAT PACKAGING IS THE RESULT OF TEAMWORK

Great packaging happens when the complete manufacturing process is taken into account from the very start of a project.

You may have a lot of questions as you bring your product to market and our passion is providing you with the practical information you will need to be successful.

Whether it's an overwrap for your bar, a pouch for your nutritional supplement, or a label for your bottle; the experts at Label Technology are ready to help guide you.

Looking for a co-packer? We can help identify the best fit for you. Need an innovative structure for a new product? We will build and test structures until you have the look and performance characteristics your product needs.

Stump us with something new? We will work with our ink, adhesive, and material vendors to develop a solution that works!
